EXPERIENCE HOMER'S ODYSSEY

What is a hero? A journey? A story? These were Homer's questions. Across six classes, we'll engage with *The Odyssey* as its own brilliant narrative and as the basis for Western literature. Prepare, O Muses, for lively discussions of Greek mythology, the pleasures of poetry, and the story's continuing power in our modern world. Don't be intimidated!

"The gods were responsible for that, weaving catastrophe into men's lives to make a song for future generations..."

Students will face the epic head-on with generous support from Beacon's award-winning instructors. Less of a class, more of a club. Activities will include creative writing exercises, Socratic seminars, and meme-making competitions. By the end, students will gain a deeper understanding of classical literature, sharpen their critical thinking skills, and grow their confidence in discussion and writing.

After watching this summer's film adaptation by Christopher Nolan, you can be the one who tells everyone, "Eh, the book was better." 😎

9 hours of live online instruction, guided discussions, personalized feedback
